COAL MINERS O. K. WILSON PLAN

COMINGS AND HILL ARE CANDIDATES

Fight for Control of National Equity Society is Opened Today

MEET IN CAPITOL

Vote Between the Two Factions Will be Close; Wisconsin Control

George F. Comings of Eau Claire will be the candidate of the anti-Tittmore forces and W. G. Hill of Luna county will be the candidate of the Tittmore forces for the presidency of the American Society of Equity.

This was the outstanding feature of the initial session of the convention which opened in the assembly chamber this morning. The convention adjourned until 2 o'clock this afternoon in order to give the different states an opportunity to caucus for their various members on the credentials committee.

The Minnesota and Iowa delegations caucused this morning and they decided to support Mr. Comings for the presidency. It was claimed this morning that the out of state delegations will be a unit in opposing the Tittmore forces.

The Tittmore forces caucused in the Capitol hotel and Mr. Hill was named to lead the fight for them.

The fight between the two factions for control of the national organization will be very close and it is said that there will not be a difference of more than five or ten votes each way. The anti-Tittmore forces will have to obtain about 20 out of the 60 votes of the Wisconsin delegation in order to control the convention.

The convention was opened by President J. N. Tittmore. Mr. Tittmore will not be a candidate for reelection as national president as the state convention passed resolutions declaring that no member of the state board should hold an office on the national board.

A vice-president will be elected to succeed H. A. Fuller of Mankato, Minn. The other members of the national board of directors are: C. F. Lowie, Montana; James Clemmons, Wisconsin; and H. A. Hendrickson, Iowa.

MRS. W. D. HOARD, WIDOW OF FORMER GOVERNOR, DIES

Had Been an Invalid for Years; Husband Died Over Year Ago

(By the Associated Press)
PORT ATKINSON, Wis., Dec. 9.—Mrs. W. D. Hoard, 79, widow of the former governor of Wisconsin died at her home today.

She was an invalid for years and scarcely left her room since the death of her husband in Nov. 1918. Mrs. Hoard was mistress of the executive mansion at Madison, from January 7, 1889 to January 5, 1891. Mrs. Hoard is survived by three sons, H. L., Arthur and Frank W. Hoard.

Threatens to Open Store for Employees

LAWRENCE, Mass.—William M. Lawrence, president of the American Federation of Labor, today served notice on the employers of this city that if they do not agree to a plan for the sale of commodities essential to the state, he will open a store here to supply the needs of the employees of the company with groceries, provisions, fuel, clothing, hardware, and other articles.

Tax Roll to be Ready Early Next Month

The 1920 city budget is accepted by the council at its special session and it is expected the tax roll will be ready to begin collecting after the first week in January. City Clerk O. S. Norsman and his staff have been at work on the tax roll since October.

Reds Made Slaughter House Out of Kiev

PHOENIX, Ariz.—Kiev was turned by the bolsheviks into a slaughter house for human beings, according to letters from Kiev. Dr. A. H. Cross mission with General Mackin's army.

MANITOWOC COUNTY—Herman

SENATOR FALL MAKES PUBLIC HIS CHARGES

Claims Revolution in U. S. Plotted With Carranza Knowledge

(By the Associated Press)
WASHINGTON.—Evidence that radicals in Mexico with the knowledge and support of Pres. Carranza, plotted to instigate a revolution in the United States and to seize border states is contained in the memorandum presented to Pres. Wilson by Sen. Fall of New Mexico, chairman of the foreign relations subcommittee investigating the Mexican situation.

Plans for the proposed revolution were obtained from minutes of a meeting last Oct. 15 in Mexico City of lodge 22, an organization of extreme agitators and I. W. W. The Mexican president is linked most directly with the plot through correspondence in which he recommended three men for special consideration "the plan they desire to put into practice in the state of Texas."

These men, the committee states, have been identified as active agents of lodge 22.

The memorandum was delivered to the president by Senator Fall Friday night and made public today.

Volunteer Resume Revival Meetings

The series of revival meetings being conducted under the auspices of the Volunteers of America, which have been suspended for about a week, were resumed at Volunteer hall Sunday evening. Rev. A. P. Robinson, evangelist, and Capt. Morgan C. Griffiths are in charge. Meetings will be held each evening this week and are open to the public.

Charged With Having Committed Assault

Robert Chortek, junk dealer, 726 Mound st., faced a charge of assault and battery in superior court this morning. The charge was brought by Nathan Leonard, peddler, 604 Mound st. Chortek pleaded not guilty and furnished bail of \$100.

MOVING PICTURES OF "Y" AID DRIVE FOR MEMBERSHIP

City Y. M. C. A. Campaign Brings Strong Competition Between Sales Teams

Moving pictures of the city Y. M. C. A. activities at the Strand theater and visits to the association building are being used in the campaign this week to acquaint men and boys of Madison with the work of the Y. M. C. A. as "Madison's best clubhouse."

Calvert Dordick's team of Hi-Y boys was awarded the pennant this noon at the luncheon attended by membership sales teams, topping the list of workers with a total of 84 points.

Kills Daughter and Then Shoots Herself
DENVER, Colo.—Mrs. Emily R. Powell, 40 years old, said to be the daughter of Horace G. Lippincott, of Wynette, Pa., socially prominent, shot and killed her 10-year-old daughter, Jacqueline, as the child lay asleep in the mother's apartment, today. Mrs. Powell then shot herself. The bullet entering her left eye. She was hurried to a hospital where it was said her condition was serious.

Would Sell Booze as Measure of Economy

WASHINGTON.—The house agricultural committee deferred indefinitely today further consideration of various resolutions proposing repeal of the war-time prohibition, after hearing Rep. Ramey, democrat, Illinois, who declared \$500,000,000 in direct taxes would be paid to the government next month if the act were repealed.

"Such a repeal would be in accord with the program of economy," he said.

Died of Apoplexy on Railroad Track

WAUSAU—Charles F. Hughes, whose body was found along the tracks of the Northwestern railroad and was reported to have been killed by a train, died of apoplexy, according to the coroner.

LEGION MAKES MOVE AGAINST NEW PARTY

Conference of Committee of 48 Refused Quarters in St. Louis

DISLOYALTY CHARGED Labor Party and Nonpartisan League Are Majority Factors of Party

(By the Associated Press)
ST. LOUIS, Mo.—The conference of the American Legion, known as the committee of 48, was unable to open its first national convention here on scheduled time today because it had not found a meeting place as the result of charges of alleged disloyalty brought against it by critics of the American Legion.

It was said efforts would be made to hold the convention elsewhere in the event the conference was not held here. The management of the hotel where the conference was to be held remained firm in its refusal to countenance the meeting.

Hundreds of delegates from all sections of the country are here and all protested the loyalty of the organization.

Delegates asserted the principal object of the conference was to formulate a program to solve the economic and social problems confronting the country and to improve the international relations of the United States and to adopt a definite plan of political action to enforce the program.

A referendum held by the committee showed that fifty percent of the members favored the Amalgamation of the committee, the non-partisan league and the newly organized labor party; 33 percent for formation of a new political party; and 17 percent a league to work through existing political parties.

The majority of the members disapproved of espionage laws, compulsory military training, and curtailment of freedom of speech and of the press, the referendum showed.

J. A. H. Hopkins, of New York, formerly national treasurer of the extinct Progressive party, is chairman of the organization.

JOSEPH WINKLER MEETS DEATH IN TRAIN ACCIDENT

Car Tester for Northwestern Crushed Under Train in Monona Yards

In the face of a blinding snowstorm, Joseph Winkler, car tester of the Chicago and Northwestern had stepped in between two cars of a switch train in Monona yards early this morning to make an adjustment of the coupling hose, members of the crew, unaware of the fact signalled the engineer to move the train ahead and Winkler was trapped and killed. The body was dragged some 70 feet.

Winkler, who was 32 years old, lived at 813 E. Williamson st. Members of the crew told Coronator W. E. Campbell they did not know of the car tester's presence between the cars or the signal to move would have never been given. Presumably, they believe, he noted something wrong in the coupling and thought he would have time to make the slight repairs necessary before the train moved.

It was pitch dark at the time and the snow, driving in the faces of the railroad men, prevented them from questioning the crew but found no one who saw Winkler step between the cars.

The body was not discovered until the switch train moved over the particular spot where the wheels took their deadly toll. Crimson stains in the snow stood out in the lantern light. An immediate stop averted nothing more than to prevent worse mutilation.

Coroner Campbell said he would not hold any inquest for he believes, after investigation, there is no ground for believing the cause other than accidental.

Winkler is a man said to have been married only a year and a half ago.

2 Couples Apply for Marriage Licenses

Marriage license application blanks were filled out yesterday by Adolph H. Emerson, Madison, and Mayme Hackett, Lo. Angeles, Calif.; Herbert A. Martin, 118 S. Blair, st. and Katherine Goodland, Madison.

BERGER POLLS GREATER VOTE THAN OPPONENT

Bodenstab Receives Nearly 5,000 Less in Primary

MILWAUKEE—Victor L. Berger, socialist, and Henry H. Bodenstab, republican, fusion candidate, today were nominated for congress at a primary election in the fifth Wisconsin district. Berger polled 14,004 votes and Bodenstab 9,232. A special election will be held on Dec. 10 to fill the vacancy caused by the present congress's refusal to seat Berger.

GOOD ROADS WORTH COST SAYS EMERY

Calls Bond Issue Practical Method of Realizing on Investment

BY J. Q. EMERY
J. Q. Emery, former Dairy and Food Commissioner, is "as widely known among the farmers of Wisconsin as any other individual. Since his retirement he has been living on his farm at Albion, Dane county, it being one of the original twelve farms accredited to the university.

"Mr. Emery writes: 'I am reminded of what transpired between two neighbors A and B as they met one morning. Good morning Neighbor B. Good morning Neighbor A.' It costs a great deal to live these times. Neighbor B. It costs a great deal to live these times. Neighbor A. Yes, yes, replied Neighbor B. It costs a great deal to live these times. Neighbor A. But it is worth a great deal to live these times. Neighbor B. A worth a great deal to live these times.

"Good roads cost a great deal."

Kickapoo Development Co. is Reorganizing

Plans for reorganization of the Kickapoo Development Co. into a fruit growers' association for cooperative work in orchards and marketing, were completed today at a meeting of fruit growers at the city Y. M. C. A.

J. A. Hays, Gays Mills, president of the Kickapoo Co., presided at the meeting. Other men here were Frank A. Rogers, R. J. Coe, Fort Atkinson; R. J. Myrland, M. H. Hoey and J. N. Bidwell, Madison; C. L. Stillman, Monticello; R. L. Marken, Gays Mills.

Green Bay Harbor Clears 2,712 Ships

GREEN BAY.—A report of the deputy collector of customs of Green Bay harbor shows that 2,712 ships of all classes entered and cleared this port during the marine season just ended. Of this total 1,787 were steamers and gasoline tugs and the remainder were barges and sailing craft.

Says Priest Threw Her Out of Church

WHITEHALL.—Mrs. Adam Ogdzki, wife of the organist of the Polish church at Independence, today testified that she had been forcibly ejected from the church by orders of the priest, Rev. A. W. Gara, sustaining injuries which, because of her delicate health, put her in the hospital for many weeks. Mrs. Ogdzki asks for damages of \$10,000 and her husband wants a similar amount.

Butter Retailing at 82 Cents Today

Butter at retail jumped another cent yesterday following a wholesale advance of a half cent and is now being quoted at retail prices of 80 and 82 cents a pound. Potatoes have gone up to \$3.20 a hundred bushels, while fresh eggs are still 70 cents.

Printers Decide to Have 44-Hour Week

KNOXVILLE, Tenn.—An agreement to establish the forty-four hour week in 1921 was approved by the members of the International Printing Pressmen's and Assistants' Union by a majority of ten to one.

UNIVERSITY WILL CLOSE ON DEC. 17

Train Situation and Fuel Shortage Brings Action

WILL OPEN JANUARY 5

Decision Reached at Faculty Meeting Yesterday Afternoon

To dismiss all classes at noon on Wednesday, Dec. 17 and to resume sessions on Monday, Jan. 5 was the decision made by the university faculty at the special meeting held yesterday afternoon.

The meeting was an informal open discussion of the question brought up by the presenting of the student petition asking for two extra days. First motions made were in favor of setting the time suggested by the petition. These were immediately followed by suggestions that in view of the exceptional train shortage the time be advanced to Wednesday noon. Discussion on the advantages of each proposition was continued for some time, closing with the acceptance in favor of the last made motion.

When the time is to be made up will be decided by the administration committee to whom the question was referred. Suggestions from the faculty were to the effect that the spring vacation be shortened or eliminated to provide for the usual number of days, or that the time be extended in June.

IRISH - POLISH SHILLALAH FOR SEN. LENROOT

Aroused Over Refusal of Wisconsin Man to Recognize Republic

Friends of Irish Freedom in Wisconsin are aroused over a recent statement of Sen. Irvine L. Lenroot questioning the fact of an Irish republic and opposing its recognition by the government of the United States.

The attitude of the senator came to light through a letter in James J. Connell, La Crosse, Wis., in which Lenroot refused the La Crosse man's request that he recognize Ireland's freedom.

In his letter to Connell which is causing wide discussion here and elsewhere in the state, Lenroot attempts to justify his opposition to the republic's recognition by citing the case of Great Britain during the civil war. He maintains that England's sympathies were with the confederacy but never granted recognition because of the vigorous protests of the north. He says in his letter to Connell that "there is a parallel situation exists" claiming the recognition of Ireland should be "the recognition of a fact, and not a recognition of a desire that the fact exists."

People of Irish descent quite generally resent the statement by the senator that the Irish republic is not

F. W. Pepper to Build Three Residences

F. W. Pepper was granted permits by commissioner of building Monday to construct three residences on lots 1 and 2, block 8, Fifth st., at \$3,500 each. The Standard Oil Co. received a permit this morning to build a \$5,000 service station on W. Washington av. and Park st. C. A. Kohn was granted a permit to make alterations at his home, 857 E. Gorham street.

Faces Charge of Swearing Falsely

Andrew Johnson of Westport is in superior court today facing a charge of false swearing in a "John Doe" case brought over alleged violations of the liquor law Oct. 30.

Inaugurate Republican as Kentucky Governor

FRANKFORT, Ky.—Inauguration of Edwin P. Morrow, the first republican governor of Kentucky in 16 years, drew a great throng to the capitol today.

MADISON CAUGHT IN NATION-WIDE COLD WAVE GRIP

With Madison face to face with a serious coal shortage, lower temperatures are predicted for tonight and Wednesday. Last night at 8 o'clock the weather bureau recorded a temperature of one above zero.

Agent F. J. Zoelle of the Chicago and Northwestern railroad last night issued a statement saying that the road was not sufficiently supplied with coal to protect local industries from fire and freezing, warning all so called non-essential industries to reserve their supplies for emergencies.

Stop Current at 4 O'Clock
Furnishing electric current to the industries of Madison after 4 o'clock in the afternoon is to cease. The Madison Gas and Electric company, as a coal conservation measure, has asked the industries to close at 4 o'clock or cease work at 4 o'clock. The time lost can be made up by starting earlier and by adopting a shorter lunch period.

This cutting off current for two hours, will save 20 to 25 tons of coal a day.

Cold Wave Prolonged

(By the Associated Press)
WASHINGTON.—A prolonged period of cold weather over the entire country is indicated, the weather bureau announced today by the abnormally high pressure over the region west of the Mississippi and the low pressure over the Gulf of Mexico, the Ohio Valley and off the north Pacific coast.

The cold wave in the west is spreading eastward and southward with zero temperatures as far south as the Texas Pan Handle and cold weather is forecast in the east and south tonight and tomorrow.

Cripples Train Traffic

(By the Associated Press)
LINCOLN, Neb.—Train traffic, crippled by a heavy fall of snow in Nebraska yesterday and last night was still seriously interfered with today while temperatures which reached as low as 22 below.

Hard Hit For Fuel

(By the Associated Press)
KANSAS CITY, Mo.—January weather came to the southwest early today. Scores of towns in Missouri, Kansas, Oklahoma, and those parts of Arkansas affected by the blizzard were reported virtually out of fuel.

Registers 50 Below

(By the Associated Press)
BILLINGS, Mont.—The lowest temperature in 23 years was recorded here last night. It was 56 degrees below zero.

RAILROADS MUST BE CONTROLLED BY GOVERNMENT

Sen. La Follette Opposes Return of Lines to Private Ownership

(By the Associated Press)
WASHINGTON.—Return of the railroads was opposed in the senate today by Sen. La Follette, who said the roads had failed to function in the emergency and had the government not taken over control would have been in worse shape than they are.

"Immediate return of the roads is impracticable and would render them incapable of giving adequate service unless given governmental financial assistance," Sen. La Follette said. Government control was inevitable, he said, if the roads were to continue to function. Governmental regulations under pre-war conditions were liberal to the last degree, the senator asserted, yet the railroad business of the country fell under that liberal control into a state of being unable to serve public interests.

J. C. Bitney Chosen S. of V. Commander

Plans for the social season were discussed by members of Harnden camp, No. 2 Sons of Veterans, at the annual meeting Monday evening. The following officers were elected for 1920: J. C. Bitney, com.; F. E. Maynard, sr. vice com.; John Thompson, Jr., vice com.; Hugo G. Vogel, William N. Nichols and H. S. Sigelko, trustees; William A. Nicho's Julius Vogel, A. E. Pierce and John Thompson, delegates to the state encampment.

Milwaukee Judge is Hearing Case Here

Federal Judge Ferdinand A. Geiger, Milwaukee, is hearing a case of Joseph Smith, Ohio, vs. Norvall Smith, Ladysmith, Wis., in the U. S. district court here this morning. The case involves northern Wisconsin land. It is expected it will require two or three days to hear all the testimony.

STRIKE END NOW SEEN FOR TODAY

Sets Wage Increase at 14 Percent Pending Re-adjustment

DELAY CONTEMPT ACTION

Striking Workmen Would Return to Mines Immediately

Reports from miner's officials late this afternoon indicated that they heartily approved of the plan of President Wilson to end the coal strike and were willing to accept the proposition.

It is believed a final agreement is but a matter of hours although following an early erroneous report, Washington was unwilling to verify a report of this ending of the strike.

14 Per Cent Wage Increase

WASHINGTON.—The agreement, it is said, provides for an immediate return to work of the strikers at a 14 per cent wage increase pending investigation.

Mr. Palmer's telegram follows: "Statements will be given out at 2:30 central time. Contempt proceedings have been continued for one week. Miners have agreed to President's plan."

INDIANAPOLIS, Ind.—Hearing on the charges of contempt of court filed against 84 general and district officials of the United Mine Workers of America, was postponed until

(Continued from Page 2.)

HOUSEKEEPER AND ALDERMAN'S SON HELD FOR MURDER

HAMMONTON, N. J.—Charles S. White, son of Ald. Edward H. White and Mrs. Edith Jones, housekeeper for the alderman, are held in the jail at Mays Landing to await the action of the grand jury in connection with the death of 3-year-old "Billy" Dansey, whose body was found in a swamp two miles from his home here Nov. 21.

White is charged with murder, while Mrs. Jones is accused of being an accessory after the fact.

Validity of Cold Storage Law Upheld

COLUMBUS, Ohio.—Wholesale prosecutions for violations of the Smith cold storage law, a measure instituted by state officials in a drive to lower living costs, were sustained today by the Ohio supreme court when it affirmed the conviction of Theodore Leonard, Columbus poultry dealer, and upheld the constitutionality of the Smith act.

Oshkosh Woman, 83, Jumps From Window

OSHKOSH.—Mrs. Mary Keating, aged 83 years, jumped from a second story window of her home here and sustained internal injuries that hastened her death. She had been ill for some time. She got out of bed, raised a window, and jumped to the ground. Recently she became blind.

Hines Reports to Wilson on R. R. Bills

WASHINGTON.—After conferring with Chairman Cummings and Fitch of the senate and house interstate commerce committees regarding pending railroad legislation, Director Gen. Hines has drawn a report with recommendations for Pres. Wilson.

Daily Weather Story

The highest temperature in the past 24 hours was 4 at 2 p. m. yesterday, the lowest 1 at 8 p. m.; relative humidities 40 at noon, 52 at 7 p. m., and 92 at 7 a. m.; precipitation, 10; sunset at 4:23. The cold wave has spread south-east over the Rocky mountain region and the plains. The thermometer reached 0 in Oklahoma, 20 below in Nebraska and Colorado and 30 to 35 below in Wyoming, Montana and Saskatchewan. The area of low barometer that was in the southwest yesterday reached the Ohio valley this morning, accompanied by snow and warmer in the upper Mississippi valley and lake region, and by rain in the east and south. Another low appeared this morning off the Oregon coast.

An inside tip worth telling to the ladies

If every man on your Christmas list were to choose his own gift—it's three to one that he'd come here—so why not you?

Men, like women, like presents that can wear.

We sell the best year 'round so it's natural we'd shine at Christmas.

YOUR choice and OUR quality under a Christmas Tree would be a wonderful combination.

And we exchange as cheerfully as a cheerful store can if you should pick a wrong size—it's impossible to choose a wrong pattern.

Little Grandchild of W. J. Anderson Dies

Ethelwyn Louise Poston, daughter of Mr. and Mrs. Virgil Poston of Elmhurst, N. Y., died Sunday night at the age of one year and seven months at the home of her grandparents, Mr. and Mrs. William J. Anderson, 1102 E. Johnson st. The funeral will be on Wednesday. Mrs. Poston has been visiting her parents for some time.

THIS MAN'S STOMACH WAS ON A STRIKE

It Could Not Work Properly On What It Received From the Blood and Trouble Followed

This is what a short course of treatment with Dr. Williams' Pink Pills did for a Bay City, Mich., man who suffered from stomach trouble so that he could not eat a meal on account of the pain that he knew would follow. There can be no perfect digestion without rich, red blood because the organs of digestion depend upon the blood and fail to function properly when the blood is thin. That was the case with Mr. P. Wynne of No. 818 Frazier street, Bay City, and he attributes the original breakdown in his health to so slight a cause as a hard cold which left him debilitated. In describing his condition he says:

"I was nervous and at night was so restless that I did not sleep well. There was an almost constant gnawing sensation in my stomach and as the pain increased after a meal I ate very little. The continued lack of sleep and food was pulling me down rapidly when I read about Dr. Williams' Pink Pills and decided to try them."

"In a short time my nerves had gained strength and I could sleep better. Then my appetite improved and I was pleased to find that I could eat without distress. As my blood became richer the gnawing sensation in my stomach disappeared and I have gained in weight and strength. I am glad to recommend Dr. Williams' Pink Pills."

The trouble with Mr. Wynne was atonic dyspepsia, a condition in which the digestive organs lack tone. Usually this is a result of thin blood, and can be corrected by building up the vital fluid with Dr. Williams' Pink Pills. These pills act directly in supplying the elements that the blood lacks and enable it to properly nourish the nerves and the organs of the body. In this way they are useful in neuralgia, sciatica, indigestion and the run-down condition resulting from colds, influenza and fevers.

Since November 1 the price of Dr. Williams' Pink Pills has been 50 cents per box. Your own druggist can supply you or the pills will be sent by mail, postpaid, on receipt of price by the Dr. Williams Medicine Co., Schenectady, N. Y. If you are interested write today for the free diet book, "What to Eat and How to Eat." Send no stamps. Just say you want the book.—Adv.

SWEEPING RESTRICTIONS ANNOUNCED

Garfield Acts in Face of Predicted End of Tieup

Continued from page 1.

next Tuesday morning by U. S. District Judge Anderson, by agreement when the case was called here today.

(By the Associated Press) INDIANAPOLIS, Ind.—Settlement within 24 hours of the strike of 400,000 bituminous coal miners of the country which had its inception more than five weeks ago, was confidently predicted today.

At 2 o'clock this afternoon the executive board and scale committee of the mine workers were scheduled to go in session to consider a proposal made by Pres. Wilson. The proposal was approved by the miners' officials, who received it while in conference with Atty. Gen. Palmer, in Washington and agreed to have the executive board to accept it as basis for settlement of the strike.

WASHINGTON—In the face of an expected settlement of the bituminous coal strike, Indianapolis, Fuel Administrator Garfield put in effect today the most drastic regulations for fuel economy since the restrictions of 1918. Even if the strike were settled today, he declared, fuel saving measures would be necessary as several weeks would be required before the nation's normal fuel supply could be restored.

Probably the most important regulation is that prescribed for manufacturing plants using bituminous coal or coke, which will be restricted to operation of three days a week on the basis of present working hours.

Three Hundred Invitations Out for Wednesday's Meeting

Adherents of the good roads movement will meet at the courthouse Wednesday afternoon at 2 o'clock for the purpose of perfecting an organization that will create a favorable sentiment on the bond issue which comes to referendum Dec. 16. Three hundred men from all parts of the county have been invited.

Judge E. Ray Stevens, and Harry Sauchoff are among the speakers. Efforts are being made to secure the most able speakers in the county who favor the movement to address the assembly.

Reports as to sentiment on the issue in different sections of the county are expected at this time. The conference will likely be in session all afternoon.

Contrary to the general impression, there will be no pro and con discussion of the issue. Judge Stevens said this morning that such has never been contemplated and the meeting was for organization only.

Danger of Mines in North Sea Increases

STOCKHOLM—The danger to shipping from floating mines in the North sea is increasing, according to the chief inspector of the Swedish mercantile marine for that district of navigation, who predicts that this winter the mines will constitute a great menace. During the week ended today, the sinking of one American steamer and the damaging of another from striking mines in the north sea have been reported.

So extensive were the mine fields, says the inspector, that large numbers of them escaped destruction by the English and American mine sweepers, notwithstanding the energy and diligence with which they worked.

Abandonment Charge Against Fred Houltier

Since August 1, 1919, Fred Houltier is accused of abandoning his two small sons, Frederick and Robert, aged 5 and 2 years respectively. They have been living with their mother at 123 N. Blair st. Their parents were divorced. The mother brought the complaint.

Houltier appeared in superior court this morning on a charge of abandonment, being brought here from Milwaukee. The case was taken under advisement and Houltier is to be confined in jail until he can furnish bail of \$1,000.

Greek Army Defeats Turks in Asia Minor

Saloniki—Greek troops advanced to the line of demarcation in Asia Minor which was fixed by the peace conference. The case was taken under advisement and Houltier is to be confined in jail until he can furnish bail of \$1,000.

NATION-WIDE LIGHT AND HEAT RESTRICTIONS

No ornamental lights, white way or other unnecessary street lights, outline lighting, electric signs or illuminated bill boards, show windows or show cases lights, are to be operated. This does not effect street lighting necessary for public safety.

No cabaret, dance hall, pool hall or bowling alley shall be permitted to use light except between 7 p. m. and 11 p. m.

Stores, including retail stores, but excepting stores selling food, and warehouses, must not use light (except safety lights), except for six hours per day. Manufacturing plants shall be allowed to use light only during the time prescribed for the use of power.

Drug stores and restaurants may remain open according to present schedules, but must reduce lighting one-half.

Railroad stations, hotels, hospitals, telephone, telegraph and newspaper offices are not included insofar as necessary lighting is concerned.

General and office light must be cut off not later than 4 p. m. in offices, except necessary federal, state and municipal offices, and except where office operation of vital industries is involved.

Dairies, refrigerator plants, bakeries, plants for the manufacture of necessary medicinal products, waterworks, sewerage plants, printing plants for printing newspapers, only, battery charging outfits for plants producing light or power for telephone, telegraph or public utility companies, are exempted. Only enough heat may be used in offices, stores, warehouses and manufacturing plants to keep the average temperature at 68 degrees, and then only during the hours for which light is permitted.

No manufacturing plant or factory shall be furnished coal or coke, or heat, light or power from bituminous coal or coke furnished through the federal fuel administration for operation in excess of three days a week of the basis of present working hours. Exemptions are dairies, refrigerator plants, bakeries, plants for the manufacture of necessary medicinal products, water works, sewerage plants, printing plants for printing newspapers, only, battery charging outfits for plants producing light or power for telephone, telegraph or public utility companies.

Elevator service must be curtailed as much as possible in accordance with above regulations.

Electric railways shall reduce schedules to minimum requirements of service under revised hours of lighting, and power as herein provided.

No heat shall be provided on electric cars during rush hours and heating during non-rush hours shall be curtailed as much as possible.

SENATOR FALL MAKES PUBLIC HIS CHARGES

(Continued from page 1.)

The notes of the meeting of the radical lodge, declared "there appeared three delegates, two American and one Mexican, who claimed the society could be able in November, 1919 to call off general strike of all miners and metal workers in the United States; that they have three million adherents in that country, where they will be able to seize western and two Atlantic ports; that a large number of American soldiers were preparing to take sides with them, and that they proposed to establish a capital of the reformed government of the United States in Colorado; that when such a revolution was successful, the Mexicans rendering their assistance, the border states which were acquired by the United States under the treaty of 1848, would be returned to Mexico."

The three men referred to are the same, the memorandum states, as those mentioned by Carranza in letters of which the committee has secured photographic copies. The first of these letters, dated June 4 and addressed to Manuel Aguilar, Borlanga, Mexican minister of government, says:

"Senior Lino Caballe, bearer of this letter, is the person who, in company with two friends, will bring to you the manifestos and the plan which they desire to put into practice in the state of Texas. This plan being very favorable for Mexico, please aid them in every way and give the necessary instructions in the frontier states."

"I remain your affectionate friend. (Signed) V. Carranza."

The second letter, dated Aug. 19, and addressed to the same government official, follows:

"The present letter will be delivered to you by Mr. Juan N. Garcia and the two friends from Texas who accompany him and, in accordance with our conversation, please give them the guarantees they solicit as well as the pecuniary assistance they may desire."

"I remain your friend affectionately. (Signed) V. Carranza."

EPISCOPALIANS MAKE NEW YORK THEIR "ROME"

New Council and Presiding Bishop Similar to Pope and College of Cardinals

(By the Associated Press)

NEW YORK—A new method of administration of the Protestant Episcopal church adopted at the recent triennial convention in Detroit, will make New York city to that denomination in many respects what the city of Rome is to the Roman Catholic church, says the New York Herald.

According to the Herald, the Episcopal church will be directed by a presiding bishop and a body of 21 to be known as the council of the Protestant Episcopal church. The presiding bishop will be the Right Rev. Thomas F. Gailor, bishop of the Episcopal diocese of Tennessee. His functions are said to correspond in many respects with those of the pope in Rome and those of the council with the functions of the Roman Catholic college of cardinals. Unlike the pope, who is elected for life, Bishop Gailor will hold office only for six years, when an election will be held.

Council Meets Thursday (By the Associated Press)

CHICAGO—The newly elected executive presiding bishop of the Episcopal church and his council will meet Thursday at New York, according to the Right Rev. Charles F. Anderson, bishop of Chicago. The Right Rev. Thomas F. Gailor, D. D., was elected president of the council and seven bishops, five priests and ten laymen named as members. "The council will hold at least four sessions a year. It met recently in Washington, D. C., to organize."

Prof. Mason to Tell of Submarine War

Development of submarine detectors, their method of operation, and their efficiency in European waters against German "sub" will be told in the fourth of the series of overseas lectures which will be given in room 105, university hall, Thursday afternoon at 4:30 by Prof. Max Mason.

Prof. Mason was a member of the submarine committee of the national research council, in which his special work was the development of anti-submarine devices. In his lecture, which will be illustrated with lantern slides, he will tell of the development of submarine detectors, their method of operation and his experience during both their development at New London and their use in European waters.

1919 Pension Fund Breaks All Records

WASHINGTON—A record-breaking sum in pensions was paid by the federal government during the last fiscal year despite the fact that the number of pensioners was the smallest of any year since 1910. The annual report today of the commissioner of pensions said \$222,129,292.70 was paid to 624,427 persons during the year as compared with \$179,835,328.76 to 546,895 pensioners the year before. The largest number of persons ever on the pension roll was 599,446 in 1902 and they received a total of \$137,502,267.90.

ASTHMA WOULD'NT LET HIM LIE DOWN

Hasn't had a sign of trouble now for over 9 months.

"A year ago I had asthma so bad my friends thought I would never get over it. I had doctored for a long time without results. I had not been in bed for 3 weeks, could not even sit up straight in a chair. Then I heard of Milks Emulsion and started using it. It was only two days later that I could get to bed and sleep soundly. After taking eight bottles (\$4 worth) I found myself completely cured. It is over 9 months now since I quit taking Milks Emulsion, and I haven't had a symptom of asthma since."—Geo. W. Baker, R. F. D. 1, Le Roy, Pa.

Why shouldn't Milks Emulsion help you? It has worked wonders for others. It costs nothing to try. Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milks Emulsion is strongly recommended to those whom sickness has weakened, and is a powerful aid in restoring and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved—usually in one day. This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream.

No matter how severe your case, you are urged to try Milks Emulsion. Under this guarantee—Take six bottles with you, use it according to directions, and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere. "Guaranteed by The Lucky Pharmacies"—Adv.

HALT ACTION PENDING NOTE FROM MEXICO

State Department Holds Its Plans in Abeyance for Present

(By the Associated Press)

WASHINGTON—Further action in the Mexican situation so far as this government was concerned still was held in abeyance today pending developments.

The state department was awaiting the arrival of the Mexican reply to the latest American note on the Jenkins' case, which was said to have been delivered yesterday to the American embassy at Mexico City. The senate foreign relations committee temporarily has postponed action on the Mexican question until Pres. Wilson has further outlined his attitude on the recent developments.

The president now is studying the whole situation, including the memorandum of Sen. Fall, rep'n, N. Mex. The foreign relations committee abandoned action on the Fall resolution to request Pres. Wilson to sever diplomatic relations with Mexico upon receipt of a letter from the president requesting that no such action be taken.

NEWBERRY SAYS HIS PLEA IS TO BE "NOT GUILTY"

(By the Associated Press)

GRAND RAPIDS, Mich.—Truman H. Newberry, U. S. senator from Michigan, and 17 of his principal campaign leaders appeared in federal court here today to plead to indictments charging fraud and corruption in the senator's nomination and election in 1918.

Among the first moves of the defense attorneys, it was expected, would be motions to quash the charges against a number of prominent citizens included in the list of 135 and to plea for separate trials. Mr. Newberry announced before leaving Washington that his plea would be "not guilty."

LLOYD GEORGE TO HOLD CONFERENCE WITH CLEMENCEAU

PARIS—Premier Clemenceau will go to London tomorrow night to confer with Premier Lloyd George on "serious questions of the present hour," according to several newspapers.

ROME—Premier Nitti is about to ask England for a prompt solution of the Adriatic question which Lloyd George and Foreign Minister Scialoja are discussing in London.

BITRO PHOSPHATE
Supplies an essential substance to the brain and nerves in the active form in which it normally occurs in the living cells of the body. It replaces these waste, giving new strength, builds firm healthy flesh. Sold by druggists under a definite guarantee of results or money back. Get the genuine BITRO PHOSPHATE and find that physicians recommend it.

Still Paying Price of Allied Victory

"The Italian people are still paying the price for the allied victory," said Mrs. M. S. Slaughter in a talk on the Red Cross in Italy at the Y. W. C. A. vesper services Sunday afternoon. "They have no food, no coal, no milk. In the early days of the war the cows were killed and most of the rest died of disease."

"Through the long years of the war the Italians kept up their endurance by saying 'We can stand it because there will never be another war.' Mr. and Mrs. Slaughter had charge of the Red Cross work in the old city of Venice."

Explosion of Stove Kills Five People

REGINA, Sask.—Five persons were dead today as the result of an explosion last night of a stove at the home of A. J. McQuitty, a farmer living near Dubuque, Sask.

Senator Truman H. Newberry and 134 others indicted on charges of fraud and conspiracy in connection with Newberry's election will begin trial Jan. 25.

OBITUARY

E. R. ELLIOTT.

The funeral of E. R. Elliott, who died yesterday at his home, 1242 E. Dayton st., will be held from the home Thursday morning at 8:30 and from St. Patrick's church at 9 a.m. P. B. Knox officiating. Interment is to be at Calvary. Bearers will be D. C. Sullivan, John St. John, Thomas P. McNamara, Joseph J. Fitzpatrick, George W. Smith and Robert Egan of Highland.

HENRY M. WARNER.

Mrs. E. M. Fox has received word that her son-in-law, Henry M. Warner, died suddenly last Friday afternoon in Evanston, Ill., of heart

TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Back-achy or have Bladder trouble.

Most forms of acid which excite and overwork the kidneys in their efforts to filter it from the system. Regular eaters of meat must reduce them like you reduce your bowels, removing all the acids, waste and poison. Else you feel a dull misery in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush out the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.—Adv.

failure brought on by acute indigestion. He was ill but a few minutes. Mr. Warner was a graduate of Johns Hopkins university and also had three years at the University of Wisconsin. He was a member of Phi Gamma Delta. In 1909 he married Lucy M. Fox, daughter of Mr. and Mrs. Edwin M. Fox of this city. He leaves his wife and a daughter, Mary Frances, 7 years old. Mr. Warner was taken to Baltimore, Md., his old home, for burial.

City In Brief

30 TROUT STREAMS HERE

There are some \$65 trout streams in Wisconsin in the 20 counties that have been surveyed, according to the report of Fish Commissioner W. E. Barber. Dane county has 30 streams. Vernon is high county with 150. Kenosha is low with two.

BUDGET UP AGAIN

Madison's budget for 1920 will again occupy the attention of the council at a meeting tonight. It is a special one, called to complete the unfinished business left over from last Friday's gathering.

FARM FIRE LOSS, \$2,000

Flames damaged to the extent of \$2,000 the house on the C. M. Colladay farm near Stoughton yesterday. The loss is partially covered by insurance. Egbert Stordahl, the occupant, succeeded in saving his furniture. C. M. Colladay, the owner, resides at 325 W. Washington ave.

MUSEUM CURATOR HERE.

William M. Dabcock, Jr., curator of the Minnesota historical museum at St. Paul, has been in the city studying the methods of administration and exhibition employed at the Wisconsin museum. He succeeded in his position Ruth O. Roberts of this city.

Army Service Did Not Make Korean Eligible

LOS ANGELES, Cal.—Judge Benjamin F. Bledsoe, in the U. S. district court, denying the application of En Sh Son, a Korean, for American citizenship papers, held yesterday that service in the U. S. military forces does not make Asiatics eligible to citizenship.

The beautiful sentiment of the old south will be expressed at Boyd's Studio, Tues., Dec. 9th.

GOOD ROADS WORTH COST SAYS EMERY

(Continued from page 1.)

these times, but good roads are worth a great deal more these times. worth a great deal more to the citizens of Dane county than their cost.

"I vote yes for bonding Dane county for the purpose of construction of good roads because I think the present generation have been so long and so severely affected with miserably poor roads that they are entitled to enjoy some of the benefits of good roads before shuffling off this mortal coil. Residents of our cities enjoy not only the benefits and pleasures resulting from paved streets, but from fine, concrete sidewalks as well, and would not part with them for many times their cost. Country people should be privileged at least to have the benefits and pleasures of good country roads.

"For about three score years and ten I have known from personal observation and experience the abominations of the poor roads of Dane county. The methods and practice of the past, except in very recent years, in the so-called construction of highways, have been the most wasteful and extravagant of any public expenditures in this state, within my observation, and I have spent 16 years in the state capital as an administrator of state laws, where I had an opportunity to observe the methods of expenditures of public funds.

"Our road expenditure has been cursed by piecemeal, hand to mouth practices. It has been like the condition of former Gov. Hoard's office desk, who wrote the governor that for many years he had been living from hand to mouth, and that the distance had all the while been growing wider.

"For the first time in our history the voters of Dane county have presented to them a comprehensive plan for consecutive years of road construction. Instead of the past haphazard hit or miss, hand to mouth practices, year after year we have offered to us a well considered plan prepared by competent experts

PHOSPHATED IRON MAKES PURE BLOOD AND STRONG NERVES

Red blooded men and women are leaders in every walk of life. Work is a pleasure and they are successful in everything they undertake.

A leading doctor says, "Show me a strong successful man or healthy, happy, rosy-cheeked woman, and they will always have pure blood and steady nerves, loaded with iron and phosphates.

There is no need of anyone going through life with poor blood, sick, miserable, played out, and nervous, when Phosphated Iron will always bring most astonishing and satisfactory results in pure blood and greatly increased energy, health and strength in the body, mind and nerves.

Phosphated Iron cannot fail to put you on the road to health. It often increases the strength and endurance of run-down exhausted folk 100 per cent after only a few days' treatment. Commence today. Do not put off. It will repay you.

Phosphated Iron is put up in capsules only. Do not take inferior pills or tablets. Ask for Phosphated Iron Capsules. For sale by C. H. Naffz, the Druggist; and leading Druggists everywhere.—Adv.

for constructive work from year to year for the next five years, when the completion of this splendid system of the much used Trunk highways should reach completion. Meanwhile the towns, as units being relieved from the construction and upkeep of the much used Trunk highways can direct their efforts to the improvement of the less used highways making connections with the Trunk Highways, thus affording every citizen ready access to good roads.

"Following the old practices we should expend nearly or quite as much money in the next 20 years and in the end still have the curse of poor roads as in the past. I vote for bonding the county for good roads, because I have faith that the adoption of the proposed plan, we shall in the very near future have good roads accessible to all our citizens, as the reward of our expenditures.

"We have been spending our millions and billions freely, to make the world safe for democracy, that is, to improve the old world conditions of living. I vote to extend a few million dollars to make Dane county highways safe for business and neighborly communication, in other words to improve the conditions of living for the citizens of Dane county.

To have these benefits, we the taxpayers of Dane county must pay for them. Others will not pay for them and give them to us. But the plan proposed wisely provides for expending the payments over a series of years, so that those who are to come after us and have the benefits of these permanent improvements, may also share in the cost of construction.

Quick Action When Pneumonia Threatens

Tightness and Soreness in Chest Calls for Begy's Mustarine

Don't fool with slow acting liniments, poultices, plasters, hot water bottles and the like, when Begy's Mustarine, the first and best improvement on Grandma's old-fashioned Mustard Plaster will subdue the inflammation and put you right over night.

It's hot stuff—is Begy's Mustarine—that's why it's the speediest killer of pain in the world.

But it can not blister—you can always depend on that, but it will open up the pores and end the misery, in double quick time.

It's the real honest remedy for all aches and pains, for congestion and inflammation for swellings and soreness.

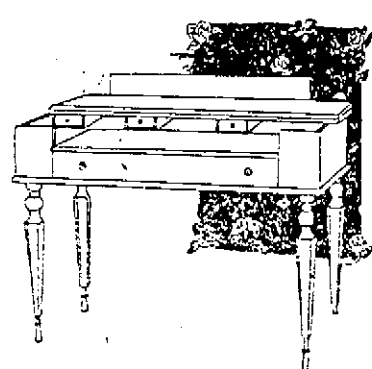

Use it the minute you suspect that influenza is attacking you and remember to apply it promptly if you want to conquer sore throat, tonsillitis, croup, coughs, pleurisy or bronchitis in just a few hours.

Always in the yellow box—never sold in jars—and money back if not as advertised. Be sure it's Begy's Mustarine.—Adv.

S. C. Wells & Co., LeRoy, N. Y.

HASWELL'S

Make this a Christmas of Useful Giving

Let your home reflect the Christmas spirit. A gift that will express the Christmas spirit to all members of the family is not only wholesome and generous but decidedly practical. Be it large or small we feel confident that in our displays you can find just what is wanted, in such taste that will please everyone.

The specials here illustrated only represent the hundreds of others that lack of space prevent us from showing.

HASWELL service extends far beyond the mere selection of the gift. Each article carefully packed, placed in our storerooms will be delivered at the time specified. You'll find it at HASWELL'S.

A Club that Makes Better Men and Boys

Have you visited the new City Y. M. C. A.?

Hundreds of the finest men and boys in Madison have taken advantage of the chance to tie up with a broad, clean organization that develops better men.

There's a place for you in this man-sized club, an opportunity for you to develop the All-round-man.

Are your interests largely social? The "Y" has a splendid equipment of reading rooms, with daily papers, magazines and writing materials; social rooms, large and small, for your committee meeting and banquets, or just to meet your friends; and a host of billiard and pool tables for a lively game.

The athletic equipment in the building is exceptionally complete, from the fast hand-ball and basket-ball courts to the six new bowling alleys and the finest swimming pool in Madison.

Educational and spiritual features include health talks, Bible classes, and practical conferences and conventions for discussing religious and social work among men.

The Cost for Membership is Surprisingly Low

Less than 5 cents a day for a full annual membership. Think of it! A whole year's advantages for \$15.00. Or, if you prefer to help sustain the work of the Association, the sustaining and Business men's Membership is available for \$35.00.

Half these features in an ordinary club would cost several times as much.

Give Him a Membership for Christmas

What more practical Christmas gift is there for father, son or brother than a year's privileges in Madison's live Y. M. C. A.? It will be a daily reminder of your thoughtfulness, and all the while it is so surely building and developing the better man.

Come in and visit this beautiful building. See its magnificent equipment in use. Ask at the desk for a guide to show you through, and treat yourself to a mighty pleasant and instructive sightseeing trip.

Now is the Time to Take That Membership

SOCIETY

Miss Hester Kahlenberg and James R. Davidson, son of Mr. and Mrs. Charles Davidson of Gary, Ind., will be married next Tuesday, at high noon at the home of the bride's parents, Prof. and Mrs. Louis A. Kahlenberg, 234 Lathrop st., by Rev. Edward W. Blakeman, pastor of the University Methodist church in the presence of immediate relatives. Miss Kahlenberg will wear a charming frock of taffeta shade chiffon velvet and a corsage. A luncheon is to be served at the home, where cut flowers will be used in decoration, after which the couple leave for Gary, Ind., where they will make their home. Both Miss Kahlenberg and her fiancé attended the University of Wisconsin.

Out-of-town guests will be Mr. and Mrs. Charles Davidson, their daughter, Miss Doris Davidson, her fiancé, Francis Thorne-Thomson, all of Gary, Ind., Matthew Carpenter of Two Rivers, an aunt of the bride, and Roger W. Kahlenberg, a cousin, who is attending the university here.

Judge and Mrs. M. B. Rosenberry, Wisconsin ave., entertain at dinner this evening.

Mrs. C. S. Slichter, 636 N. Frances st., entertained the members of the Faculty Bridge club at her home this afternoon. The club meets every second Tuesday.

Mr. and Mrs. Burr W. Jones, Langdon st., entertained the Madison Literary club last evening. Judge E. Ray Stevens read a paper on "Theodore Stevens, the Great Commoner, and the discussion was led by Prof. Carl Russell Fish and Prof. W. A. Scott.

Mr. and Mrs. F. E. Williams, 610 N. Lake st., entertain at dinner to-

morrow evening. Christmas decorations will be used. Those present will be Mr. and Mrs. James R. Davidson, Mr. and Mrs. E. B. Parker, Prof. and Mrs. George A. Hoel, Mr. and Mrs. T. E. Jones and Prof. and Mrs. F. H. Elwell.

Mrs. E. H. Farrington, 208 Lathrop st., and Mrs. Charles E. Buell, 115 Ely place, entertain Friday afternoon at the home of Mrs. Farrington, the members of section 3 of the First Congregational church. The feature of the afternoon will be the reading of some Chinese letters by Mrs. E. P. Gardner of Chester, N. J., mother of Prof. E. H. Gardner, who is visiting her son and daughter-in-law.

Mrs. James B. Read, Vista Road, entertains tomorrow afternoon for wives of faculty members of the university extension division.

A card party will be given by the ladies of St. Bernard's church tomorrow evening in the auditorium. Cards will begin at 8:15, and afterwards there will be a food sale. Prizes are to be awarded and a luncheon is to be served. On the committee in charge are Mesdames Arthur Clement, Fred Mehdames Arthur Clement, Fred Reider, John Kertan, William Dunn, G. E. Kretlow and Fred Walterscheid.

Invitations have been issued to student members of Christ Presbyterian church to a party which will be given Friday evening at 7:30 o'clock at the church parlors by a committee of one hundred young people of Christ and Westminster Presbyterian churches. This committee consists of 50 men and 50 women and was organized to welcome to the church and its activities and to entertain Presbyterian students. The body is divided into 10 sections, each of which is responsible for the entertainment of a certain number of students. A novel feature of Friday evening's program is that the guests will put on stunts and entertain their hosts. Rev. M. G. Allison, student pastor of the

SORENESS, PAIN, ACHING JOINTS

Don't Suffer! Relief comes the moment you rub with old "St. Jacobs Liniment"

Don't stay sore, stiff and lame! Limber up! Rub soothing, penetrating "St. Jacobs Liniment" right in your aching muscles, joints and painful nerves. It's the quickest, surest pain relief on earth. It is absolutely harmless and doesn't burn the skin.

"St. Jacobs Liniment" conquers pain. It instantly takes away any ache, soreness and stiffness in the head, neck, shoulders, back, legs, arms, fingers or any part of the body—nothing like it. You simply pour a little in your hand and rub "where it hurts," and relief comes instantly. Don't stay crippled. Get a small trial bottle now from any drug store. It never disappoints—six gold medal awards.—Adv.

Enjoy A Night In Dear Old Dixieland at Boyd's Studio, Tues., Dec. 9.

School Children's Sight

You are responsible for the sight of your child and should take steps to see that he is not handicapped in school work by defective vision.

Backwardness in study, especially, should be taken as an indication of possible eye trouble—while often the clever scholar who frowns while working, or who suffers from frequent headaches, may be suffering from eye strain.

The eyes of every child should be examined to make quite sure whether glasses are needed or not.

Gilbert Olsen Gained 26 Pounds Taking Tanlac

Milwaukee Man Throws Away
Crutch and Cane—Feels
Twenty Years Younger

"I have thrown my crutches and canes away since I began taking Tanlac, and I have gained twenty-six pounds in weight and actually feel twenty years younger," was the remarkable statement made by Gilbert Olsen, a well-known employee of the Federal Rubber Co., at Cudahy, Wis., who lives at 605 Greenfield avenue, Milwaukee.

"I don't believe any man living ever had a worse case of rheumatism than I had," continued Mr. Olsen, "for ten long years I was tortured with rheumatic pains all through my body. I would work a few days, be laid up maybe for weeks, work a few weeks again, and then be laid up for weeks again. Yes sir, I would be working at the bench when a rheumatic spell would strike me through the knees and I would fall to the floor just like I had been hit by a streak of lightning. The rheumatism was all over my body—in my feet, up my legs and knees, in my shoulders, down my elbows and in my wrists and hands. Originally I wore a number seven shoe, but my feet would swell so bad that I would have to split open a number eleven slipper when those spells were at their worst stage. Sometimes the pains would strike me through the shoulders and no matter what I had in my hand it would drop to the floor for a lost grip, and if I started to move around just a little the pains were so awful they felt like they would kill me. At times when I worked at the press I would have to help my right arm up to the lever with the aid of my left arm and then have to let it back down again with my left arm, and at other times my left arm was worse than my right and I would have to help my right arm up and down again the same way. When I got home I couldn't be comfortable anywhere. I would ache all over and get all positions for a few minutes—a chair on the floor or lying on the bed, and as I said sometimes I would be laid up for weeks in bed. My wife had to dress me and put on my slippers and at times my legs were so swollen that my trousers wouldn't come up over my knees. When these spells came on I had to limp on crutches or hobble about on two canes, and if I stepped on any little thing like a piece of gravel a pain would immediately shoot straight to my heart. I lost my appetite, was nervous, hungry, was a complete wreck and fell off thirty-seven pounds in weight."

"During all these years I tried every medicine I had ever heard of. I took mud baths for two years, I took a full treatment from an institute in New York, and I spent hundreds of dollars, but as for the good I received I might as well have thrown the money in the streets. At last I read about Tanlac in the papers, and when I bought my first bottle that was the best investment I ever made for by the time I had finished it I was convinced that I had finally found what I had been looking for all these years. In all, I took four bottles, threw my canes and crutches away and never more an ache or pain in my body. All traces of the rheumatism have disappeared and my appetite came back and as I said, I picked up twenty-six pounds in weight. Now, all this was last spring and you can see what lasting results I am getting—why, I haven't missed a day from work since then and feel better than I have in twenty years. If anybody doubts this statement just tell them to call on me and I will tell them more than pleased to take them and tell them just what I think of Tanlac."

Tanlac is sold in Madison by Taylor Pharmacies, in Jefferson by W. A. Perkins, in Middleton by Dr. W. A. Perkins, in Stoughton by O. W. Perkins & Son, in Sun Prairie by W. A. Schultz. Adv.

Busy Week Ahead of Madison City Council

The Madison council will have a busy week, beginning with a session on Monday morning when a committee of the whole to consider the 1920 budget Tuesday evening, followed by the adjourned session of the council to levy 1920 taxes. The first regular December session of the council will be held Friday evening. The committee on claims will meet Wednesday evening.

CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How To Get Quick Relief from Head-Colds. It's Splendid!

In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more hawking, sneezing, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh will be gone. Get a small bottle of Ely's Cream from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membranes and relief comes instantly. It's just fine. Don't stay stuffed-up with a cold or nasty catarrh. Relief comes so quickly. Adv.

'AERIALIST' ACT HAPPY SURPRISE

Clever Novelty Headlines
Orpheum Bill This
Week

It is probably not fair to let the dope out on Roy La Pearl, "World's Greatest Aerialist" at the Orpheum this week, but as the act is a headliner on the program and really clever, the truth will out. The audience settles back to endure an acrobatic act, the acrobat appears, his rings give way and then comes the surprise of one of the best Italian character dialogues and song acts of the season. The voices are good, and the "Wop" arguments a scream. Twentieth Century in her dancing act is one of the best toe artists of the year. The Beltrons present a whole chorus of singing canaries and produce quite an unusual effect by their "symphony." Boyce Combe, English light comedian and Clemenso and Gerson, French entertainers add variety to the bill.

Can't "You All" come over to Mr. Boyd's Studio, Tues., Dec. 9th and shake your feet?

WOULD IMPROVE WESTERN NAVAL ESTABLISHMENTS

WASHINGTON — Development of Pacific coast naval shore establishments during the next five years at a cost of \$158,000,000 is recommended in the report of the special board headed by Rear Admiral J. S. McKean sent last year to check up on its previous program. Deep water fleet bases at Bremerton, Wash., at a cost of \$44,000,000, and at San Francisco, at a cost of \$1,000,000, are the chief items proposed, the San Francisco project as previously outlined by the Helms board having been increased by proposed destroyer and submarine bases.

The report urged establishment within three years of the base at San Francisco, saying that with the Bremerton base it would provide two deep-water stations for the capital ships, the minimum required for efficient operation of the Pacific fleet. In addition, expansion of facilities at San Diego to provide a complete operating base for southern California was recommended to include fleet supply facilities and a repair base for the smaller ships. Advantages of this point as a base for maneuvers and target practice were emphasized.

Alsace-Lorraine Make Declaration to French

PARIS—Jean Francois, youngest member of the chamber of deputies from Alsace-Lorraine, was selected to read the declaration of the 24 Alsatian deputies to the chambers today.

"The Germans have not renounced Alsace-Lorraine," the declaration says. "The decision of the people against Germany has not reconciled the Germans to the loss of the two provinces. Germany does not understand the verdict of the election of November 16. By every crime Germany has tried to falsify that vote."

CHURCH TAKES IN 114 NEW STUDENTS

The growing place of the church in student interest was shown Sunday morning when 114 university students were received into the membership of the Madison First Congregational church.

A large majority of those who united with the church Sunday came upon invitation of their fellow students, said the Rev. J. E. Serles, university Congregational pastor. Cabinet members of the Congressional Students' association were largely instrumental in securing the large number of new members.

MUSIC

The second of the series of matinee recitals was given Saturday afternoon in the Wheeler Hall. There was a large attendance of pupils and friends of the school both of whom displayed keen appreciation of the program which consisted of an illustrated talk by Miss Elizabeth R. Wright on the "Significance of Music" after which the pupils taking part in the musicale brought the program to a close. Many out-of-town pupils of the school were in attendance also. Dorothea Wagner, a pupil of Marie Seel-Holst, at the Wheeler School of Music, will appear in a juvenile piano recital in the Wheeler hall, Wednesday night at 8:15 o'clock. A special feature of the program is the "Theme and Variations" from the Sonata Op. 47, No. 2 by Beethoven as is also the two-piano number, "Farandole," a new composition by A. Mueller. On Thursday evening, a recital by piano pupils of Miss Elizabeth Wright and dramatic expression pupils of Mrs. Harry May Nash will be given.

At The Theaters

NEW STRAND

Have you a "twin soul"? It's nothing like an athletic heart or the housemaid's knee, but it frequently causes even more trouble. Billie Burke is afflicted with one in her new Paramount-Artcraft picture, "Sadie Love," which will be shown at the Strand today for the last time. It takes the form of an old sweetheart who shows up about five minutes after she has been pronounced the wife of Count Luigi Palavicini, a handsome Italian. Fortunate Billie imagines herself in love with her old flame, though he has grown fat and unlovely since their amorous affair. She plans an elopement with him but his wife and an excitable French friend of the Italian husband foil the little scheme and offer some complications on their own account. It is a most laughable and delightful mess, which finally turns out happily for all concerned.

MAJESTIC

"Love Honor and?" starring Stuart Holmes and Ellen Cassiday will be the feature at the Majestic for today and Wednesday. Thrills, coupled with romance and adventure, are the high lights of this big drama. Much of the action of the play takes place in the open, and for these scenes the producer has "shot" some of the prettiest exteriors offered by the many estates comprising the homes of the wealthy suburbanites of New York.

GRAND

Young men who are anticipating marriage will be able to observe some genuinely helpful hints for making wedded life happy by seeing "A Temperamental Wife," starring Constance Talmadge and which is showing at the Grand Theatre. Probably no young man would be confronted with as perplexing and humorous a situation as the sickly Senator Newton from Nevada who was "vamped" by Billie Billings, a fascinating girl who wanted the Senator for a husband because he had a reputation for never taking notice of women. The Senator, however, turns out to be a model husband after his wife has eloped with a Bulgarian Count, roused fashionable tourists from their early morning slumbers and experienced the torture of being put out of a hotel just six inches in front of a six-shooter.

Teaching a Hungry Occupation, Says Harvard Man

"The last college professor will die of malnutrition in November, 1928," predicts Elliot Wadsworth, Harvard professor, who declared that "a stuffed specimen of the collegii professorianus will then doubtless be placed, along with the dodo, the 5-cent fare and the gin rickey, in the Smithsonian institute."

There are different stages and kinds of malnutrition, according to Prof. C. D. Cool of the Romance language department. "Anyone who has had an education, has learned to patch up the rough places and can content himself with fewer physical comforts." While modesty prevented him from stating he thought teaching a noble profession, Professor Cool claims there is a fascination that holds, regardless of circumstances.

"I don't care if they pay coal diggers a larger salary than they do me," he stated when asked about salaries. "I wouldn't dig coal no matter how much I was offered, and I doubt if any other instructor would."

Son of Ex-Kaiser to Have Home in Holland

Meatcutters Strike Said to be Failure

MILWAUKEE, Wis.—The strike of Amalgamated Meat Cutters and Butchers' Workmen of the Menominee valley district, where 3,000 men were out for more than a week, is reported to have been weakened today with the return of workers to three packing plants.

IRISH-POLISH SHILLALAH FOR SEN. LENROOT

(Continued from page 1.)

a fact. They point out also that the comparison as to Great Britain and the south during the civil war is not a parallel case. The north and the south were bound together by a mutual agreement, a voluntary compact, but Ireland was never so bound to England—in fact was bound to England against her will.

The attitude of the Wisconsin senator has been called to the attention of the Sinn Fein delegation now in Washington.

Sen. Lenroot's letter follows:

Mr. Jas. J. Connell,
La Crosse, Wis.

Dear Mr. Connell:

I have yours of the 3rd inst., and in reply will say that the recognition of the independence of any nation should be the recognition of a fact and not a recognition of a desire that the fact exists. While my sympathies are wholly with Ireland in her desires for self-government and independence, I wish to be entirely frank with you in stating that I do not believe that conditions at present would warrant the United States in recognizing the Republic of Ireland as a free, independent nation.

During the Civil War the north protested most vigorously against Great Britain recognizing the independence of the Southern Confederacy, and while the sympathies of the government of Great Britain were with the south instead of the north, they, as you of course know, never did recognize the independence of the south.

It seems to me that here a parallel situation exists, and whatever our sympathies may be would not as a Government be warranted in recognizing the independence of Ireland under conditions as they now exist. Of course, as time goes on whether the independence of Ireland becomes a fact, there is no reason why we should not then recognize it.

Very sincerely,
I. L. Lenroot.

11 CONFERENCE BASEBALL TILTS FOR WISCONSIN

Track and Swimming Each Get Three Big Ten Meets

Wisconsin's baseball schedule will consist of 11 conference games, if the schedule adopted at the meeting of Big Ten coaches and athletic directors is approved by the athletic council. Three dual meets in swimming and as many in track will be approved at the same time.

For the first time in many years Wisconsin will meet both Ohio and Michigan in baseball. Both teams will be played away from home on the same trip, and Michigan will come to Madison for the final contest of the year, June 7. Michigan, which won the conference championship last year, also has 11 games on her schedule.

The only university in the conference which plays baseball, which the Badgers will not go up against, is Iowa. Two games are scheduled

WISCONSIN

May 26—Chicago at Wisconsin.
June 5—Chicago at Chicago.
June 7—Michigan at Wisconsin.

with Purdue, Indiana, Illinois, Chicago, and Michigan, while Ohio will not return the contest played at that place May 7.

Minnesota, as usual, will not be represented by a baseball team. Northwestern has been considering seriously the matter of playing baseball at that institution, and the question will be settled at the next meeting of the faculty committee. Patton gymnasium, Northwestern, was designated as the place in which the conference indoor track meet would be held on March 20. The conference swimming meet will be held at the same place on March 19.

Wisconsin's swimming schedule contains meets with Chicago, on March 6; Illinois, February 14; and Northwestern, February 28.

The entire conference schedule follows:

Tobacco Habit Dangerous

says Doctor Connor, formerly of Johns Hopkins hospital. Thousands of men suffering from fatal diseases would be in perfect health today were it not for the deadly drug, Nicotina. Stop the habit now before it's too late. It's a simple process to rid yourself of the tobacco habit in any form. Just go to any up-to-date drug store and get some Nicotol tablets; take them as directed and lo! the pernicious habit is quickly vanishes. Druggists refund the money if they fail. Be sure to read large and interesting announcement by Doctor Connor soon to appear in this paper. It tells of the danger of nicotine poisoning and how to avoid it. In the meantime try Nicotol tablets; you will be surprised at the result.—Adv.

RUBE GOLDBERG'S BOOBS—The Weekly Meeting of the Tuesday Ladies' Club

Major Leagues Open "Winter" Baseball Season; Look For "Ban" To Patch Up Quarrel

Annual Meetings Start Today—May Cut Out 25-Cent Bleacher Seats

NEW YORK—The "winter" baseball season was opened today with the annual meeting of the National league. The American leaguers will hold their annual meeting tomorrow and the minor leagues will dispose of their grist of business later in the week. The new international league which held its annual convention yesterday, wound up routine affairs today.

The principal business before club owners of the National league was the settlement of various financial matters and the selection of a new board. There will be no election of a president as Heydler is serving a three year term.

Another question that aroused interest was the proposal to eliminate the 25 cent bleacher seats at National league parks. It was reported that a majority of the directors favored abolition of the cheap seats.

The meeting of the American league tomorrow was the all absorbing topic of conversation among the baseball notables. The announcement that President Ban Johnson and the five loyal club owners were on their way here for the meeting was accepted in some quarters as meaning that an end of the internal wrangle in the junior organization was in sight.

BASKETBALL TONIGHT

The Madison basketball Association will play its second week's scheduled games tonight.
Lowell School—South Madison vs Four Lakes A. C.
South Madison A. C.—Company L vs Pilgrim A. C.
Randall School—Wingra Park A. C. vs Essers' Markets.
Lincoln School—Plymouth A. C. vs Lincoln A. C.

STATE NORMAL TRACK MEET TO BE HELD HERE

Conference Sets Dates for High School Basketball Tourneys

The Wisconsin Normal School Athletic conference held here Saturday decided to accept the invitation of Coach T. E. Jones to hold the state normal track meet on the new indoor track at the university stadium. The track will be completed next June 1 and will be one of the best in the world.

The district basketball tournaments for high schools will be held on March 4, 5, and 6 and the state tournament, March 18, 19 and 20. The champions of the northern and southern normal school districts will play the final series of sectional games during the week ending March 13.

Eligibility rules were revised to promote clean sports.

Sun Prairie Will Meet Varsity High Five, On Friday

Freshman Quintet Leads Interclass Basketball League Race

Sun Prairie will be the second team to furnish opposition for Wisconsin High school's basketball team when the two meet in the local gym Friday afternoon. The varsity high team is rubbing the weak spots off following the decisive 32 to 21 victory over Oregon a week ago.

By defeating the eighth graders, 15 to 1, the Freshman basketball team went into undisputed possession of first place in the interclass league.

The Standings.

	W.	L.	Pct.
Freshmen	3	0	1.000
Juniors	1	1	.500
Eight Grade	1	1	.500
Sophomores	1	1	.500
Seventh Grade	0	1	.000
Seniors	0	2	.000

Summary:

Freshman (15)	Eighth Grade (1)
Nelson	R. F. Nuzum
Wilcox	L. F. Pearson
Otis	C. Morgan
Shubring	R. G. Dunn
Stehr	L. G. Kenop
Baskets—Stehr, 4; Bauchop, 1; Nelson, 1.	
Free throws—Stehr, 2 out of 2; Shubring, 1 out of 2; Morgan, 1 out of 2.	
Referee—Stevens.	

TRACK CANDIDATES TO REPORT TONIGHT

Candidates for the varsity and freshman track squads will meet tonight at the Y. M. C. A. on call of Coach T. E. Jones and Coach G. T. Bresnahan to get the track season under way. All candidates for track manager will also report at this time.

BADGERS TO BE MINUS CAPTAIN IN RIPON GAME

Knapp Sustains Injury to Shoulder Ligament in River Falls Contest

An injury to a ligament in his shoulder, sustained in the first half of the River Falls game, will keep Capt. "Mike" Knapp from playing with the Badgers in the game with the Ripon basketball team at the gym Saturday night. The Badger leader did not notice the severity of his injury till after the game. He expects to be able again to play in a week or two.

With Zaifer and Knapp both out of the preliminary games, the substitutes will get plenty of chance to show their mettle.

HERE'S ANOTHER STORY ON BABE RUTH, SLUGGER

Here's another story on Babe Ruth, since stories on Ruth are always in order and it is unusual because it deals not with the Babe's strength but with his weakness. Maybe some American league pitchers will say "Huh, that's no news to me," but at any rate they will be interested, along with the rest of us. Now to the story:

"Feed 'em to him high, fast, and on the inside; but be sure they're high."

In one sentence a schoolboy battery mate sized up the alleged weakness of the home run hitter of the present American league campaign.

The speaker was George Lee, an attendant at Dr. Lane's Kenwood sanitarium in Chestnut Hill, Philadelphia, and at one time a star pitcher in the St. Mary's school league in Baltimore.

Not so many years ago George Ruth played with a St. Mary's nine, and, although he breezed through the school league like a shot from one of the French 75s, his batting average never became staid off the curves of young George Lee. The Red Sox hero set a home run record of 16 one season down at St. Mary's, but never one was credited to his account when Lee was doing the serving.

Caddock Prepares To Defend World Wrestling Title

CHICAGO—Earl Caddock world's heavyweight wrestling champion who will make his first appearance in this country since the termination of the war by meeting Sam Clapham, the English grappler at the Second Regiment armory Dec. 12, will arrive in Chicago the latter part of the week to complete his training at the C. A. A.

ROUNDY'S CORNER

Bought a new suit Saturday. It used to be that clothes made a man. Now it breaks him.

When you call a friend on the phone now you don't say how are you? The first thing you say is "Are you warm?"

There was a sprinkling of Tuxedos at the fight at Milwaukee Saturday night. Madison was represented with no Tuxedos. But Shorty St. Peters, Chick Reider, Paul Tenny, Babe Starkweather were there in the \$10 seats. Them Birds do not trail in second speed when they go. They want the cut out wide open.

After reading Patterson's All-Western from Collier's Weekly, I guess he must have wrote that song "Am't it Awful, Mable?"

The White Sox have got 45 men on their list for the spring trip. Some of them who can play ball.

John Pepper is going to set up pins at the Park alleys this week, so he can find out where No. 5 and 7 pins are located.

Save the coal, the landlord shouted as he took a train for Palm Beach for the winter.

George Bugee of the Square Cigar store, is setting up cigars. Due to the fact that Al Rosnit of the Auto Row has finally lost an argument to him or any one else.

The Madison street car company is going to build a line past the fair grounds they say. Well, the farther they get out of town the better.

A man in Kansas City killed a police man on the street last Saturday. Claims are he will be sent to Chicago at once where he will find more competition.

Have been watching Dude Huffman swat that hand ball up against the ball up against the boards at the Y. M. C. A. Wow! No wonder rubber is going up. Two or three swats and a new ball is needed.

Eight-Club Circuit For International

NEW YORK—At the annual meeting of the International league today the clubowners agreed on a schedule of 154 games. The season of 1920 will open Wednesday, April 21, and close Monday, Sept. 20. The eight club circuit will be as follows: Toronto, Buffalo, Rochester, Syracuse, Baltimore, Jersey City, Reading and Akron.

FROSH GYMNASIS GET NUMERALS

Six last year's freshmen gymnasts have recently been awarded numerals. They are: K. C. Harris, G. Z. Ohlson, D. S. Devine, F. R. Golley, C. W. Campbell, and C. Osborn.

PUBLISHES NEW BOOK

"The Forbidden Trail," a book which has for its fundamental idea the development of the southwest by means of a machine for producing sun-power for irrigation purposes, is the latest work of Mrs. Honore Willise, a graduate of the University of Wisconsin. She is now editor of the Delineator in New York.

"Lightning Eddie" Casey Ends Gridiron Career At Harvard; Is Opposed To 'Pro' Football

Crimson Hero Gets Letters From "Kids"—and Answers Them

CAMBRIDGE, Mass.—Here are a few anecdotes marking the passing of the football gridiron of "Lightning Eddie" Casey, the athletic hero of the Harvard football team, who has thrilled thousands by his courage and skill in broken field running. I have no intention of coming back," Casey sounded the death knell to the hopes of football enthusiasts when he spoke these words. "Phantom Eddie" was eligible to play one more year at college, but has decided to take his degree in January and enter business. The war broke up his football career. He is entitled to a "war degree."

Teams To Indianize

Casey came into the spotlight of football while playing in his freshman year at Natik high school. He had developed an almost uncanny way of running through a broken field for a touchdown. Later he went to Phillips Exeter, where his football talents were quickly recognized. There the Harvard scout saw the Natik wizard and he was brought over to Cambridge.

Casey has not tackled a player on any gridiron since 1915. Then he was a freshman at Harvard. Casey hurt his abdomen that year while tackling and found that he could not tackle. So Casey learned to Indianize. Coaches at Harvard say Casey was the best Indianizer since the day of Tacks Harwich, Harvard's famous end. But Casey was the only halfback who could bring his man down and pin him to the ground while tackling.

"Lightning Eddie" saved Harvard from defeat in the Princeton game by a play that was devised on the spur of the moment. Harvard football followers deny this, but Casey says it is so. Princeton was leading Harvard 10 to 3 in the last period. The ball was near the Princeton goal. "Babe" Felton, at quarterback for Harvard, saw a hole in the Princeton line. He whistled to Eddie, called off some signal numbers. The rest of the team were mystified, but each held his man. Casey slipped through the hole. Felton tossed a forward pass. Eddie received it back of the Princeton goal line. The game ended with the score Harvard 10, Princeton 10.

A broken field run by Casey in the Yale game brought a 10 to 3 victory for Harvard. Casey modestly states that Harvard would have won anyway as the team had plenty of trick plays that would have brought at least another touchdown.

Against "Pro" Football. Edward H. Hies buried in Westminster abbey, so when the Cambridge postoffice received a letter addressed "Edward the Second," they sent it over to Edward Lawrence Casey, football warrior. It read: "Friend Edward—Before departing for dear New Haven may I not congratulate you for your brilliant performance in the Stadium? I think your headwork was magnificent and the manner in which you outwitted my crowd clever to the extreme. Many well wishes and added success for the future. Ed 20."

Every week Casey receives hundreds of letters from people all over the country. They ask all sorts of questions about football. Some are knocks and some are boasts, most of the latter. One Worcester boy simply asked Casey to write him a letter. Casey's youngsters and immediately went to the Harvard star's football career is over. Casey made his last when he turned down an offer of \$500 to play two games with James Thorpe's professional football team. Casey says he loves football for its sake alone and does not wish to be classed with the professionals.

THE CAPITAL TIMES

An Independent Newspaper

WILLIAM T. EVJUE, Editor

Entered as second class matter December 13, 1917, at the Post Office at Madison, Wis., under the act of March 3, 1879.

Subscription Price: By carrier 42 cents monthly or \$5.00 per year; by mail anywhere in the United States, \$4.00 per year. Member of Audit Bureau of Circulations.

Published by The Capital Times Company every evening except Sunday, in The Capital Times Building, 106 King Street, Madison, Wis. Telephone Badger 2200.

MADISON, WIS., TUESDAY, DECEMBER 9, 1919.

PUBLIC OPINION ON INDUSTRIAL QUESTIONS

RECENTLY the Committee of Forty-Eight sent a questionnaire to several thousand thinking men and women throughout America. The scope of the questions, with a summary of the answers, is as follows:

Do you favor the program of the American Labor Party? Yes, 93 per cent; No, 7 per cent; 37 per cent are in favor of government ownership of the railroads; 14 per cent are in favor of private ownership under government control; 49 per cent are in favor of government ownership under the Plumb plan.

Do you favor a Federal Department of Education with a member of the Cabinet at its head? Yes, 87 per cent; No, 13 per cent.

Do you think the United States should become a guarantor of American foreign investments? Yes, 5 per cent; No, 95 per cent.

Do you favor continuation of absolute control of foreign relations by the President? Yes, 7 per cent; No, 93 per cent.

Do you favor the abolition of secret diplomacy? Yes, 96 1/2 per cent; No, 3 1/2 per cent.

Do you favor the Espionage Laws? Yes, 7 per cent; No, 93 per cent.

Do you favor limiting the power of the courts to declare laws unconstitutional by some such method as requiring three-fourths majority in the Supreme Court? Yes, 94 1/2 per cent; No, 5 1/2 per cent.

Do you favor income and inheritance taxes not only to raise revenue, but for the purpose of equalizing the distribution of wealth? Yes, 93 1/2 per cent; No, 6 1/2 per cent.

Do you favor the gradual and progressive transfer of taxes from improvement and all products of labor to land values? Yes, 87 per cent; No, 13 per cent.

Sixty-four per cent favor free trade.

Twenty-three per cent favor a protective tariff.

Thirteen per cent favor a tariff for revenue only.

Twenty-two and one-half per cent favor enforcement of the Sherman law.

Seventy-seven and one-half per cent favor government control or ownership of recognized monopolies.

Do you favor the further restriction of immigration? Yes, 43 per cent; No, 57 per cent.

Do you think that women should have equal legal and economic rights and opportunities with men? Yes, 97 1/2 per cent; No, 2 1/2 per cent.

With reference to stopping profiteering and reducing the cost of living, 77 per cent favor super taxes on profits, 91 per cent favor public machinery for distribution of profits.

Do you favor compulsory military training? Yes, 14 per cent; No, 86 per cent.

LETTING THE PEOPLE RULE

ONE of our readers has written a request for the publication of the roll-call in the U. S. senate on the Gore amendment to Article 10 of the League of Nations providing that no member of the league shall resort to war "until an advisory vote of the people shall have been taken."

We fear that our correspondent is a bit old fashioned. The proposal to give the people anything to say about a declaration of war under Article 10 received only 16 votes in the senate. The roll call follows:

Yeas—Ball, Borah, Capper, Elkins, France, Gore, Gronna, Jones (Wash.), Knox, La Follette, McCormick, McLean, Moses, Norris, Reed, Sherman.—16.
Nays—Ashurst, Brandegee, Calder, Chamberlain, Colt, Culberson, Cummins, Dial, Dillingham, Edge, Fall, Fletcher, Frelinghuysen, Gay, Hale, Harding, Harris, Harrison, Henderson, Hitchcock, Johnson (S. Dak.), Jones (N. Mex.), Kellogg, Kendrick, Kenyon, Keyes, King, Kirby, Lenroot, Lodge, McCumber, McKellar, McNary, Myers, Nelson, New, Newberry, Nugent, Overman, Owen, Page, Phipps, Pittman, Poindexter, Pomerene, Ransdell, Robinson, Sheppard, Simmons, Smith (Ariz.), Smith (Ga.), Smith (Md.), Smith (S. C.), Smoot, Spencer, Sterling, Swanson, Thomas, Townsend, Trammell, Underwood, Wadsworth, Walsh (Mass.), Walsh (Mont.), Warren, Williams, Wolcott.—67.
Not Voting—Bankhead, Beckham, Curtis, Fernald, Gerry, Johnson (Cal.), Martin, Penrose, Phelan, Shields, Stanley, Sutherland, Watson.—13.

Mr. La Follette apparently thinks that the people ought to have some voice in such a matter. Mr. Lenroot thinks this right ought to be reserved for rulers.

His vote on the Gore amendment will be another thing that Mr. Lenroot ought to explain in the next campaign. He forgot to mention it in his recent tour around the state.

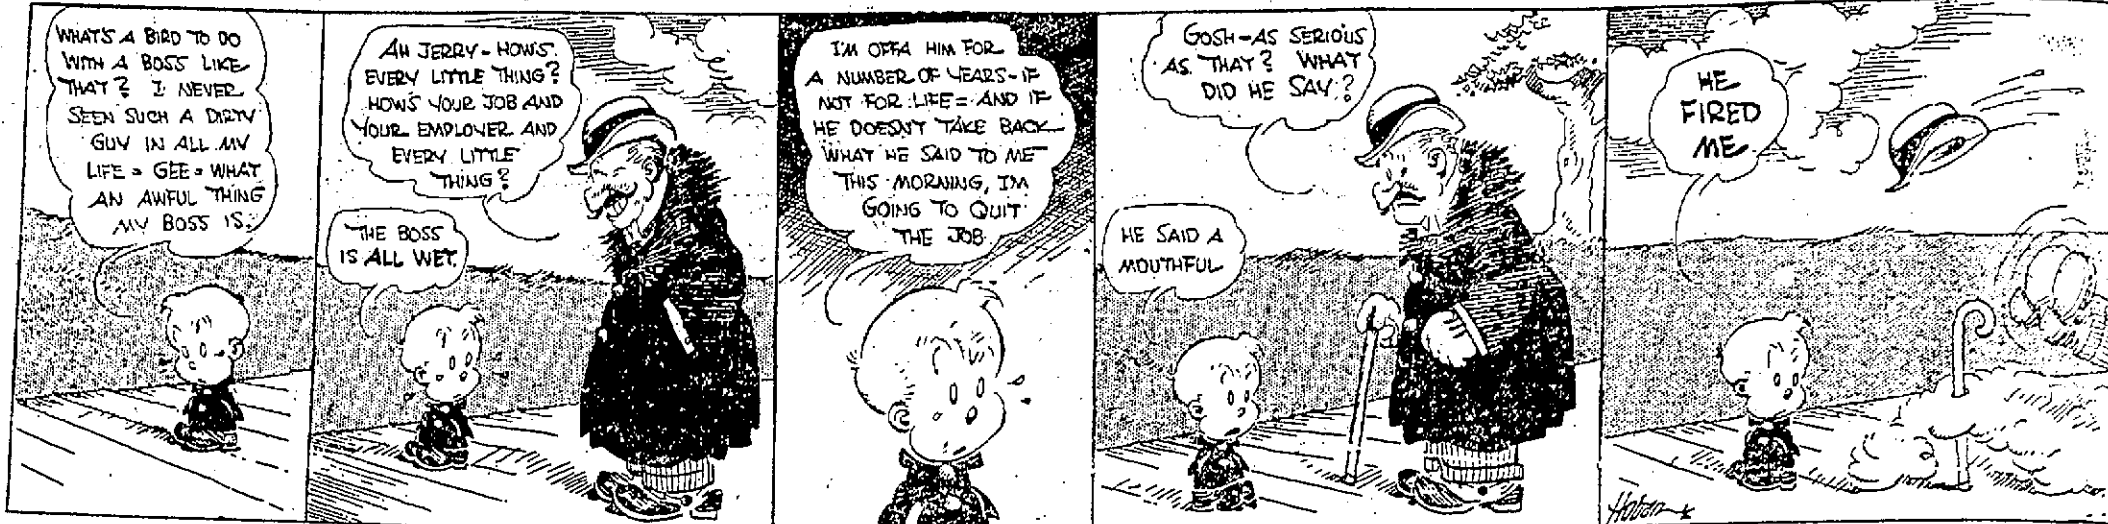

PREPARES SKETCH OF BADGER STATE

M. M. Quafe, superintendent of the State Historical society, has prepared a sketch of Wisconsin for the new edition of the American encyclopedia, which is to be published soon. Among the subjects treated are Wisconsin's geography, climate, geology, mineral resources, agriculture, forest products, manu-

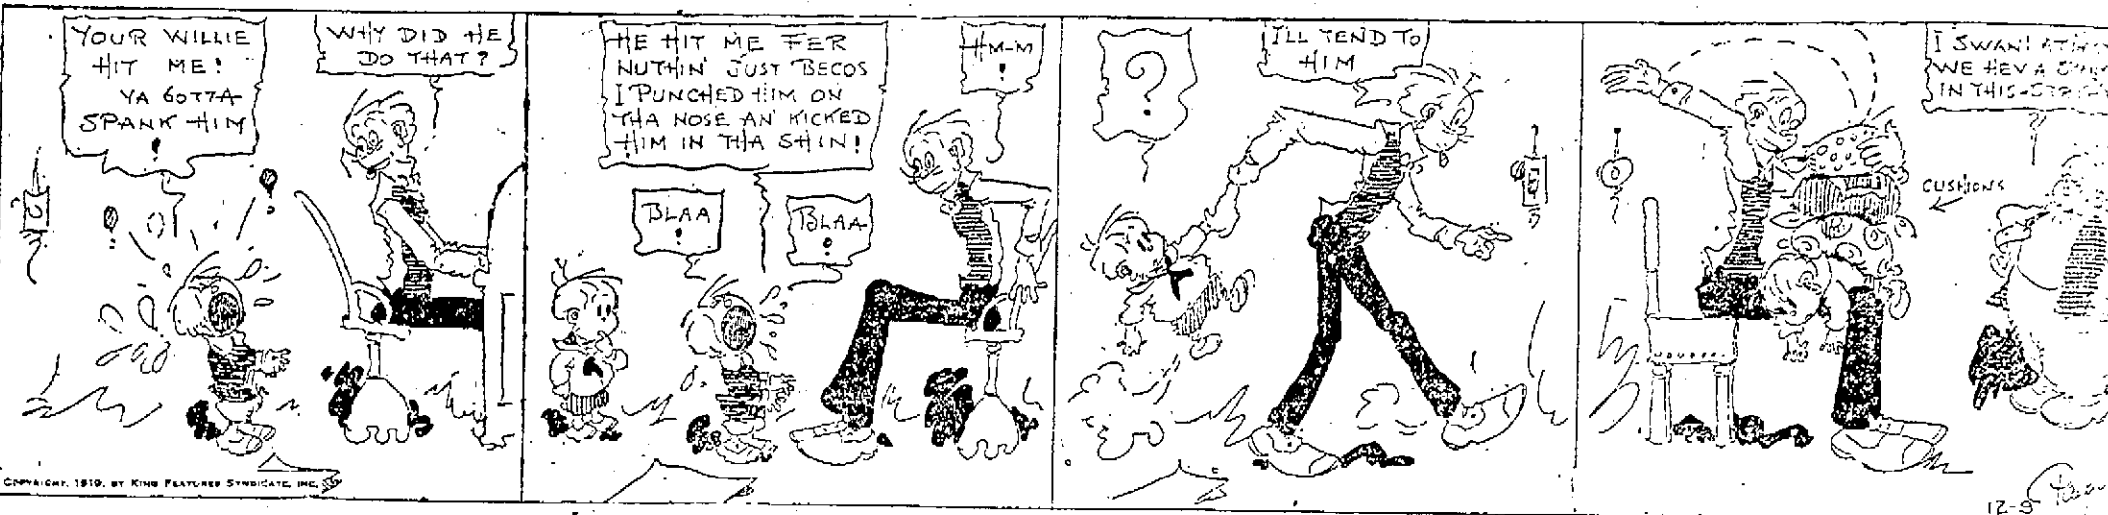

factures, banking, transportation, government, finance, charitable and correctional resources, militia, population, history, and religion.

TO LECTURE ON HEALTH
The value of health supervision of school children will be discussed in a lecture by Dr. George C. Ruhland of Milwaukee Tuesday evening at 8 o'clock in science hall. This is the second of a series of lectures on public health arranged by the Dane County Medical association.

JERRY ON THE JOB—The Young Man Has a Good Excuse

SAY, POP!—Willie Gets the Kind of Spanking He Deserves

Questions And Answers on Proposed Bond Issue

(By the Committee of Citizens Opposing Issue)

Q. In what amount is it proposed to bond Dane county for highway improvement? Ans. \$10,000,000.

Q. How long do these bonds run and what rate of interest do they bear? Ans. They will run not to exceed twenty years from date of issue and bear interest at the rate of 5 per cent, payable semi-annually.

Q. Are the bonds to be issued all at one time? Ans. It is now proposed to issue them during the years 1920-1923, the last bonds to mature in 1943.

Q. In that event, do we really pay interest for more than twenty years? Ans. Yes. The first bonds are to be issued in 1920 and we pay interest until 1943.

Q. Is the average rate of increased taxation computed by the proponents of the bond issue, based on a twenty year or a twenty-five year period? Ans. A twenty-five year period.

Q. Is such increased rate of taxation based upon the present assessed valuation of Dane county? Ans. No, it is based upon an assessed valuation which is arbitrarily fixed and which the proponents of this measure assume will be in 1945 more than 50 per cent greater than the present assessed valuation.

Q. Is property now assessed at its full value in Madison and in Dane county? Ans. The last report of the assessor of incomes for Dane county shows that in the city of Madison, property is assessed at 101.16 per cent of its true value, and that in many other towns and villages the assessment is greater than the true value of the property and that the county as a whole, is assessed for very nearly its true value.

Q. What is the total amount of interest that will become due on the bonds before they are paid off if issued according to the chart or schedule prepared by the state highway commissioner? Ans. \$4,770,000, making a total of \$14,770,000 principal and interest that will become due on these bonds.

Q. Does this comprise the total expense of the highways proposed to be built, including interest paid on the bonds. Ans. No, it is estimated by the state highway commission that the county will receive from the state and federal governments, \$1,340,000 which the highway commission expects will be used in constructing these highways in addition to the \$10,000,000 received from the bond issue, making the cost thereof \$11,340,000 and which with interest, will make \$16,110,000.

Q. Is not \$16,110,000 an enormous sum? Ans. Yes, but one can readily comprehend it. If a dollar of a bank should pay out one dollar every minute working three hundred days each year and eight hours each day, it would take him a little more than one hundred eleven years to pay out this sum.

Q. How many miles of highway is it proposed to construct with this bond issue? Ans. Two hundred seventy-five miles of concrete highway and three hundred twenty-five miles of gravelled highway, making six hundred miles in all.

Q. What is the estimated cost per mile of constructing this highway? Ans. About \$30,000 per mile for eighteen foot concrete and between \$8,000 to \$10,000 per mile for gravel, according to estimates prepared some months ago by the state highway commission.

Q. Is it not probable that the cost of the work will exceed the estimates? Ans. The estimates were prepared some time ago and prices for labor and material have advanced constantly since then, and it is common knowledge that such estimates are usually lower than the actual cost.

Q. Do the people of Dane County have to pay any portion of the money received from the state and federal government? Ans. Certainly. In a recent address by the state highway engineer, he stated that of course the people of Dane County would pay their full share of the money which we receive from the state and federal governments, but that an account of the conditions attached to state and federal aid for highways and the methods of allotting the same, the people of Dane County would contribute more to these funds than the county would receive; that it would really be better for Dane County to raise the entire \$11,340,000 by bond issue if it could do so without having to contribute to the fund received from the state and federal governments.

Q. Why do we issue bonds which will take not less than a quarter of a century to pay instead of collecting a tax each year sufficient to cover the cost of work done that year? Ans. The chief reason urged by those who favor bonds is that if we issue bonds we can complete the work in five years and have the benefit of the roads in the very near future instead of waiting a longer time for the completion of the roads.

Q. Is it possible with the great difficulty in getting labor and material, to complete all these highways in five years? Ans. The state highway commission's engineer in a recent address, stated that in his judgment on account of the difficulty in getting labor and material the work cannot be completed within this time and that it probably cannot be completed in less than ten years, so we cannot in any event, have the work finished as soon as desired.

Q. Would the people of Dane County have the entire interest on the bonds, if the county should levy a tax of one million dollars each year for ten years, paying for the expense as it goes? Ans. Yes.

Q. By so doing, would we lose the state and federal aid? Ans. No, we would get these just the same.

Q. Would these highways be completed as soon by this method as by issuing bonds? Ans. Yes, if the highway commission's engineer is correct in his statement that the work cannot be completed in less than ten years in any event.

Q. What is the largest tax which the highway commission estimates it would be necessary to levy in any year in case we issue bonds? Ans. \$800,000 in 1926 and is not less than \$500,000 until the year 1942. Indeed there are only five years in the entire period in which the tax levy would be less than \$500,000.

Q. If bonds are issued, how much would the county still be owing at the end of ten years? Ans. \$5,925,000.

Q. If we levy an annual tax of \$1,000,000, each year to pay for the improvement as the work progresses, what would be the county indebtedness on account of the improvement of highways at the end of ten years? Ans. Nothing.

Q. Would the \$11,340,000 improve all our county highways in the county? Ans. No, only a small portion of them as we have 2,249 miles of county highways in the county and the bond issue would be used for improving only six hundred miles thereof.

Q. How are the additional 1649 miles of highway to be cared for?

Ans. By additional taxation, if they are kept in repair.

Q. Is a concrete road the final word in highway construction? Ans. Probably not. Leading highway engineers differ radically on this point. Some hold that concrete makes an excellent road, and others that it is an exceedingly unsatisfactory material of which to construct a highway, unless properly reinforced, and that even then it has serious disadvantages.

Q. In the Milwaukee Journal of December 7, 1919, is a statement in reference to the government's investigation of the automobile transportation problem in which it is stated that "J. N. Mackall, chief engineer of the Maryland state roads commission is now facing the problem of restoring pavements shattered by the impact of heavy truck traffic on concrete roads leading out of Baltimore and constructed as recently as 1913 and 1914. Mr. Mackall says of these roads: "Both of these cement-concrete roads have reached the end of their life. They show many cracks and are disintegrating. We have tried patching them without success and are now covering them with one and one-half inch binder course and one and one-half inch topping course of asphalt."

Q. Does it add to the cost of construction of a concrete highway to build it of reinforced concrete? Ans. Yes, materially.

Q. Is it proposed to use reinforced concrete on any portion of these highways? Ans. No, only bulk concrete laid on top of graded highways.

Q. Does the city of Madison lay any concrete highway that is not reinforced? Ans. No concrete highway is laid in the city of Madison unless properly reinforced.

Q. Is not sand or cinders put between the graded street and the concrete as is done in laying sidewalk? Ans. No, the concrete is laid directly on top of the soil.

Q. Is a concrete highway a permanent highway? Ans. Our state highway engineer says that it is not and that there is no such thing as a permanent highway, that the term permanent road is absolutely a misnomer.

Q. How soon after being laid, does a concrete highway need repair? Ans. Often within a year or two; sometimes it will go longer before repairs are needed.

Q. Have we any concrete highways near Madison and if so, has it been necessary to repair them? Ans. Yes, on the Middleton road, on Monroe street and partially around Lake Monona. Longitudinal and transverse cracks have developed in all of these roads after they have been down a year or more, holes have formed and other defects shown.

Q. Will the bond issue include a fund for keeping these highways in repair? Ans. No, whatever is spent for repairs or rebuilding these roads must be provided by additional taxation.

Q. How long will a concrete highway last? Ans. Our state highway engineer states that in his judgment they will last from twenty to fifty years if properly constructed, but admits that it is only his opinion. Many concrete highways constructed in this and other states have had to be re-built in much less than twenty years. One such highway not far from Madison, is the concrete highway just west of the city of Watertown, which went to pieces soon after it was constructed.

Q. Is the concrete highway popular with the farmers who have to draw heavy loads to market? Ans. No, it is very unpopular. It has a very hard surface and is hard on horses' feet; it is very slippery when wet or when there is light snow or sleet. In fact, he cannot use it at such times and it is very difficult for him to use it for heavy hauling at any time, unless he keeps his horses sharp shod.

Q. What is the relative cost of asphalt and vitrified brick as compared with that of concrete? Ans. The cost of concrete and asphalt is practically the same and of vitrified brick is somewhat greater.

Q. Have we any asphalt or vitrified brick pavements in Madison? Ans. Yes, we have asphalt around the capitol park, on University avenue, Grand avenue and some other streets and we have some vitrified brick on a portion of Main street.

Q. Is not a gravel road an excellent road for practical purposes? Ans. It is probably the best all around year in and year out road that we have. It has stood the test since the state was founded. It is easy to construct, easy to repair, is suitable for travel at all seasons of the year and is much cheaper than either concrete, asphalt or vitrified brick.

Q. Does not rock macadam make a suitable material for highway construction? Ans. No, a few years ago our highway experts considered it one of the best materials and strongly advised its use, but they now admit their mistake and it has been generally discarded.

Q. Is not nine or ten thousand dollars a mile a large price to pay for gravelled roads? Ans. It seems large and is large in comparison with what steel roads have cost in the past, when built by local authorities, under local supervision.

Q. If the bond issue is voted and before the highways are improved, experience should demonstrate that asphalt or vitrified brick or some other material is better suited for highway construction than concrete, or if a better route between two towns were found than that adopted by the County Board of Supervisors, could these changes be made? Ans. Probably not. The state highway engineer, at a recent Association of Commerce meeting was asked if gravel could be substituted for concrete in building these highways, and he said it could not be. He was further asked the specific question if it were found best to change the road from McFarland to Madison by constructing a highway adjacent to the St. Paul railroad from the Macaulay farm in Bloomington Grove to Edwards Park, which would avoid all the hills of the present route and shorten the distance by several miles from McFarland to Madison, whether this change could be made, and he said this could not be done, that it was too late to make any changes.

Q. Why is it necessary to thus arbitrarily determine years before a given highway is constructed, where and of what materials it should be constructed, when before this highway is reached in its due order of improvement, a better material than concrete may be available or a different route may be found more desirable. Ans. There is no good reason for doing this. The reason advanced by the state engineer is that you cannot trust the people to carry out any scheme of highway improvement unless it is worked out in detail beforehand and made so rigid that no human power can change it after it is adopted.

Q. Is there any limit to the debt

which Dane County can contract for highways or for any other purpose? Ans. It is limited by the constitution of 3 per cent of the assessed valuation.

Q. What is the assessed valuation of Dane County and what is the amount of the indebtedness it can incur? Ans. The assessed valuation if a trifle less than \$200,000,000 and 5 per cent of that sum is \$10,000,000.

Q. Is it wise for the county to thus largely exhaust its credit? May there not be other purposes for which the people will want the county to incur indebtedness? Ans. It has always during this generation, at least, been the policy of the county not to incur a bonded indebtedness and the people themselves will by their vote on the bond issue, December 16th, determine whether it is wise to change that policy and whether there may not be other things they prefer to concrete highways.

Q. How will the bond issue affect the financial condition of the city of Madison? Ans. Most disastrously. The annual tax levy of the city has increased from \$170,411 in 1900 to not less than \$1,474,771 in 1919, an increase of nearly nine hundred per cent. And if the council should levy the amount of state, county and municipal tax which the council deems necessary to pay the running expenses of the city, it would require an additional levy of \$132,000, or a total in excess of \$1,600,000.

Q. Why was not this additional levy made by the council? Ans. Because of the charter limitation upon the tax rate.

Q. Was anything that was deemed essential cut out of the budget because of the charter limitations? Ans. Yes, \$25,000 for school purposes and many other smaller items.

Q. Will we need more money for additional school houses and other school purposes in the next few years? Ans. Yes, many hundreds of thousands of dollars.

Q. Will we need large sums of money for other municipal purposes than schools in the near future? Ans. Yes, for improving those streets in the city that have been held up on account of the war, for a new city hall and many other municipal purposes which the people are demanding.

Q. Is there any way to raise the money for these purposes? Ans. None that has been suggested except by bonding the city and at the rate we are issuing bonds the constitutional bond limit will soon be reached.

Q. If we had had this year to levy a tax of two or three mills for highway bonds, could we have done so? Ans. We could raise no more money than we are now raising. The courts would have to decide whether it should be used to pay county highway bonds or for paying the expense of running our state and municipal government.

Q. About what is Dane County's share of the now existing bonded war debt? Ans. It is estimated at from twenty to twenty-five millions of dollars, a most conservative estimate would be not less than twenty millions.

Q. About how many laborers will it take to do the work on the highways of Wisconsin now planned by the state highway commission for 1920? Ans. The state highway engineer states that it will require not less than fifteen thousand.

Q. What effect will this have upon the price farmers and contractors will have to pay for labor? Ans. It will naturally increase that price and farmers will have to pay much larger wages for farm help and contractors more for workmen if they can get them.

Q. What effect will this have upon the cost of building? Ans. It will materially increase it; also, naturally retard building operations.

Q. What effect will it have on the high cost of living. Ans. It will materially increase the cost for the farmer, if he can get help to add the additional cost thereof to what he sells; if he cannot get help (which is very probable) he will produce only what he can produce himself and the lessened production will greatly increase the cost of things on the farm.

Q. If this bond issue is voted down will it prevent our having concrete highways improved? Ans. No, we can go right ahead and improve them with gravel, "paying as we go," and for the sum which the supervisors plan to spend if the bond issue carries can put a splendid gravel highway on each principal and secondary trunk line of Dane County and use the balance building narrower, but entire serviceable gravel roads on the remainder of the highways of Dane County. Or this would not prevent the county from voting to issue bonds for a smaller and reasonable amount if the people should vote down this bond issue, nor would it prevent constructing the highways of some other material than gravel or concrete if upon further consideration some other material were deemed better.

Q. If the bonds are voted will the highways included in the trunk lines be improved from the point where they are now macadamized to the county line before the portions thereof that are already improved are reconstructed? Ans. No, the engineer of the state highway commission stated at the recent Association of Commerce meeting that the commission plans next spring to start at Madison, laying concrete on the main lines to Milwaukee and Chicago, which would place the concrete on that portion of the lines which is now improved.

Q. Is not this hard on those communities which have been taxed so many years to construct the macadam highways in other parts of the county but have had no macadam roads in their localities? Ans. Naturally; or at least they think so.

Q. Is any one outside of Dane County financially interested in having this bond issue carry? Ans. Certainly; the cement trust; the motor car trust; the automobile trust and the manufacturers of road machinery.

Q. Have the people of Dane County any one to blame except themselves if this great debt is saddled upon the county? Ans. No, the facts have been presented from which they can fully inform themselves of the issue and if they permit this matter to be "put over" they have only themselves to thank.

JOHN COMMONS, JR. GETS BRITISH CROSS

Capt. John A. Commons, son of Prof. John R. Commons and member of the class of 1918, has received from the British government the British Military Cross, awarded him for extreme gallantry in action.

Captain Commons, Co. "K", 33rd Infantry, distinguished himself on October 13, 1918 on the Kadz front, Archangel, Russia. He was Lieut. Chas. B. Ryan, also of Co. "K", and 15 men, armed only with rifles, after everyone else had retreated, held an advance post against a large force of Bolsheviks, armed with machine guns. The citation reads "they routed the enemy, saved the situation, and prevented the annihilation of the American forces at Kadz."

For his gallantry Lieutenant Commons together with several of his men were decorated and awarded by the British Government with British Military Cross. Lieutenant Ryan and Captain Commons were present at the crossing of St. Stanislaus, second class, by the Russian Government of Archangel.
